

Wireless Emergency Call System

Axia Wireless Nursing Call System

Resident Safety

- 900 MHz spread spectrum
- Any Combination of wireless pull stations, push button stations, pendant transmitters, bed or chair exit, door or window exit alarms and More!

Flexibility and Growth

- Supports up to 48 wireless transmitters ID's that monitor not only your residents but also your staff.

Staff Safety

- Add fixed or portable transmitter for staff to call for help.
- The system can notify the front desk, on-site security, or even your local 911 emergency center.

The 900MHz Advantage

- Superior in-building range.
- Provides 26 channels of redundant communication.

*Accessories Sold Separately

Wireless Technology

The Axia Wireless Nursing Call System

annunciates up to 48 device ID's including wireless patient and pull stations, personal pendant transmitters, and other security and healthcare devices. Wireless consoles provide an audible tone and visually display the room number and name needing assistance.

Add wireless emergency pull stations in bathrooms, dome lights over the doors, or code blue stations for priority emergencies. Exam rooms can be equipped with wireless flush mounted stations with one to 3 colored LED buttons to signal staff when assistance is needed.
